

"Tell us what you think"

Annual Report 2006/07 Consultation

The Trust is committed to ensuring that the public are as well informed as possible about their local Trust and the annual report plays an important role in communicating with the public we serve, who can then hold us accountable for our actions.

In the past we have won national prizes for our annual reports, but we now feel that the cost of professional design and print cannot be justified.

In order to save money we are proposing to produce an internet based report, with hard copies or different formats to meet specific needs available on request.

You are welcome to send your views on our proposal by 31 March 2007, to:

Sandy Cribb, PR & Communications Manager
Southport and Formby District General Hospital
Town Lane, Kew, Southport PR8 6PN.
